

Treatment Foster Care
and Family-Based Services

In guarding the rights and privileges of foster and adoptive parents, PATH, Inc. and the REACH Project wish to secure the informed consent of all parents who speak to public or private audiences, mentor prospective adoptive parents or conduct a media interview about their adoption experiences.

In signing this consent form, the signer acknowledges their voluntary participation in the REACH Project Adoption Ambassador effort. The participation of the signer as an Adoption Ambassador in no way affects or influences present or future relationships with PATH in the course of receiving any PATH services for themselves or their families, and PATH does not use the ambassadorship program as a condition of delivering any PATH services.

PATH will not use any portion of the signer's public remarks, nor take or use any photos or make or use any recordings of the signer for use in publicity or promotional materials, unless it first secures the separate written consent of the signer.

The ambassador's decision not to sign this authorization will not, in any way, affect the ability to obtain services from PATH.

PATH and the REACH Project appreciate the willingness of Adoption Ambassadors to come forward and share their stories with adults in their communities who either have the skills and love needed to adopt a child or who can provide other support services to children and families. It is a vital part of the REACH Project adoption endeavor.

I certify that I have read and understood the above information.
